SESSION INFORMATION

A. TARGET DATA:

Task/Target No.	:	**93-216-P**
Session No.	:	**01 & 02**

B. PERSONNEL DATA:

Source No.	:	**049**
Monitor's No.	:	**NA**
Beacon/Sender No.	:	**NA**

C. SESSION DATA:

Date Task Received	:	**17 NOV 93**
Session Dates	:	**17 & 18 NOV 93**
Time #01	:	**1530-1614**
Time #02	:	0945-1001
Method Used	:	**CRV**
Distractions (PIs)	:	**Bad sinus headache; sad about missing my children/separation.**
Pre-session Hunches (AVs)	:	**#01: Factory; #02: None**
Date Summary Returned	:	**18 NOV 93**

D. EVALUATION DATA:

Viewer's Estimate	:	
Evaluator's Estimate	:	

E. SESSION SUMMARY:

The target site consists of a fenced-in enclosure with one side partially obscured. There are areas which are overgrown and uncleared of vegetation reminiscent of weeds and vines. There is stuff piled up throughout the area. The target feels seemingly unkept.

There are concentrations of rusty metal, boxes with one end open, grating and a sharp, piercing smell. Concepts associated with the target are: heat; smoke; spinning water; movement like treaded vehicles; parallel marks reminiscent of scrape marks in the sides of a large, squarish hole in the ground; rubber and series of uniform "humps".

There is a low building which feels empty and unoccupied (see sketch on page 3). It has a low, wide opening or entrance on one side. The walls consist of concrete or brick. There are no windows. The side is a light color and its appearance is reminiscent of white paint which has peeled. There is a high wall which abuts along one side of the low structure and towers over my head. Other associated features are depicted in the sketch on page 3.

Approved For Release 2000/08/08 : CIA-RDP96-00789R002700130006-3

One of the strongest impressions of this target is a square-shaped hole or compartment with a "lid" which opens and closes (see sketch on page 2). When closed, the "lid" is even with the ground surface.

Other objects associated with this target are depicted on page 1 of the sketches:

1a) A series of uniform "humps" or rolls.
1b) A squared, unidentified feature.
1c) A series of cone-shaped objects attached in a row; reminiscent of a bank of lights.
1d) 2 or 3 stacks of long metal rods, tubes or pipes; these sit behind a low wall or wooden barrier.
1e) A "layered" roll.
1f) A stack of rectangular sheets of thick material reminiscent of wood.

Additional concepts and/or objects present at the target are:

- something like and old laundry or mail cart.

- large, circular metal objects reminiscent of conduits or tanks (see page 3).

- combustion.

- machinery.

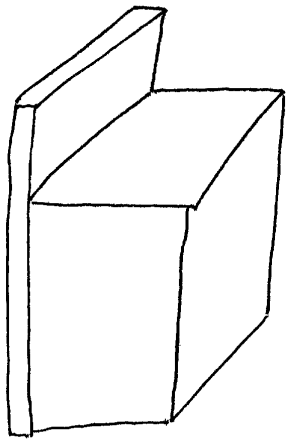
MISCELLANEOUS CONCEPTS AND/OR OBJECTS

Approved For Release 2000/08/08 : CIA-RDP96-00789R002700130006-3

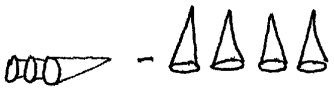
* Series of uniform "humps" or rolls

(b)



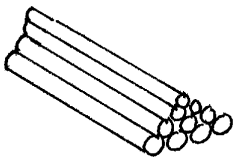
* unidentified feature

(c)



* Series of cone-shaped objects attached in a row; reminiscent of a bank of lights.

(d)

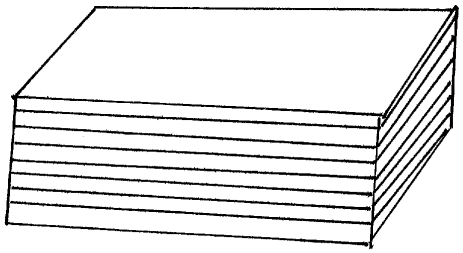


* 2 or 3 stacks of long metal rods or tubes or pipes.

(e)

* "Layered" roll.

(f)

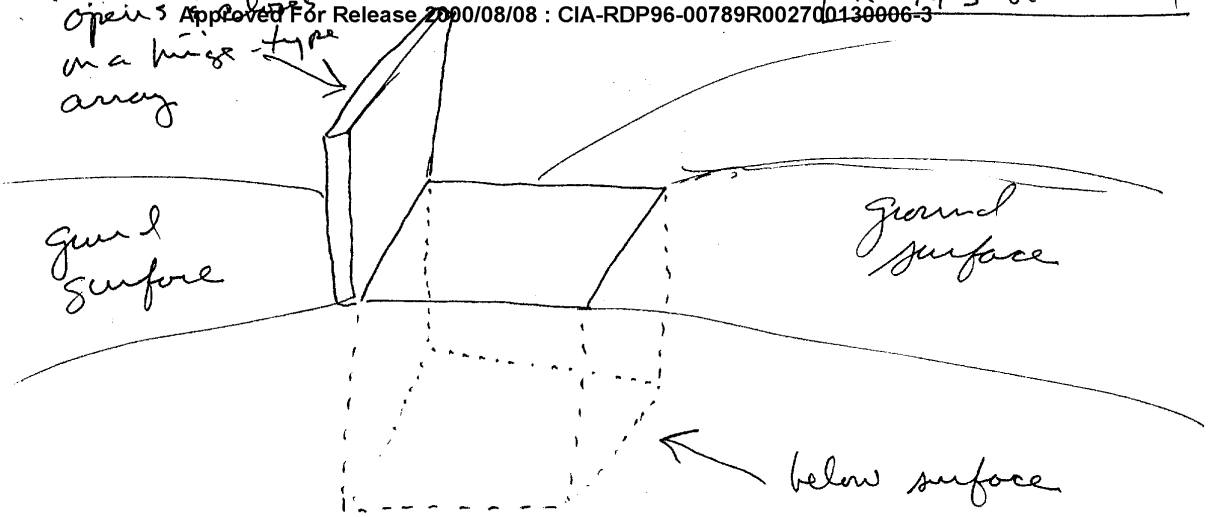


* STACK of rectangular sheets of material reminiscent of wood; thick layers.

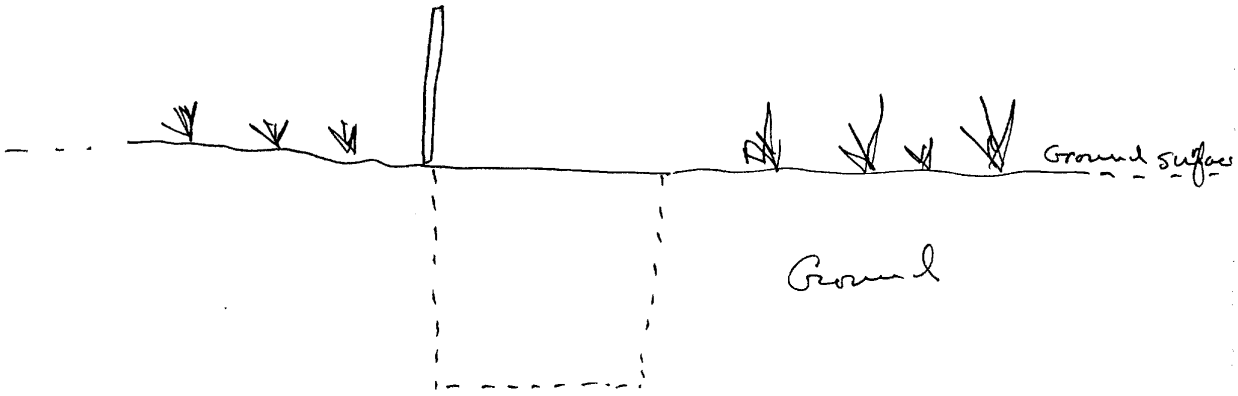
Approved For Release 2000/08/08 : CIA-RDP96-00789R002700130006-3

Approved For Release 2000/08/08 : CIA-RDP96-00789R002700130006-3

* 3/4's view *



- square-shaped hole or compartment; subsurface; top, when closed down, is even with the ground surface



* SIDE view or cross section *

JOINT COMMUNICATIONS SERIES

This Joint Communications (JC) series will be series of four (targets) with feedback provided after all four projects are completed.

The targets will be selected by "CW". At 1000 hours each day "CW" will focus on one target element as well as any key dynamic/feeling/sensation/sound/color associated with or implied by the target content. This "sender" information will be recorded as part of the target material.

The sender will hold target focus for at least 30-45 minutes initially at a specific time during the day.

Viewers will initiate their response at 1000 hours, or at any other time throughout the day. At least two sessions are desired per target (the latter session for refinement and for developing target spatial relationship or dynamic/feeling aspects in more detail). Viewers also have the option of working on the target during the evening.

All sessions will be summarized as soon as completed. In the case of evening work, this material will be documented by 0900 hours the following day.

Evaluation of this series will be accomplished on a case-by-case basis based on a 0-5 scale comparison, and on a blind ranking procedure. The four targets will be arranged in random order and forwarded to us after all session data is completed for the last target. This will facilitate the blind ranking procedure. Ground truth will be obtained only after the judging is completed.
